## Customer Reviews

This book is full of useless information unless you are "blind and from Ethiopia!! When, and if there is a listing for an average kid more likely than not the scholarship is no longer being offered, the phone number and email have expired. The book said 2014 but I don't think they ever change the expired information. Don't they ever review the listings for accuracy?? I have spent a lot of time to discover very little usable information. Save your money!

It was not what I was expecting, book is too big and complicated to understand. A lot of the information in the book you can get online without buying the book.

This was an okay book, but you can find most of this information on the internet. I would not buy again.

very helpful
